

MR3003-54  
Appln. No. 10/618,670  
Reply to Office Action dated 10/6/2004

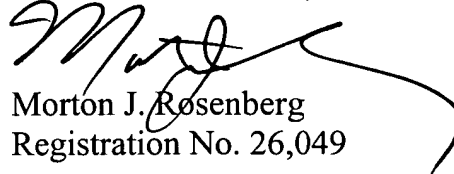

Remarks

This case has been reviewed and analyzed in view of the Official Action dated 6 October 2004. In the Official Action, the Examiner in his opinion, has found three inventions, namely Species I directed to Claims 1-12 drawn to an organic electroluminescent with connecting line passing through a channel from the top of an isolating seal cap; Species II directed to Claims 13-17 drawn to an organic electroluminescent with connecting line passing through a channel chiseled through a substrate; and Species III directed to Claims 18-21 drawn to an organic electroluminescent with a surface-mounted line through one side of an isolating seal cap. The Examiner has required that Applicant choose one Species for further prosecution in this case.

By this Response, Applicant elects Species I directed to Claims 1-12 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,  
FOR: ROSENBERG, KLEIN & LEE
